Cultural peer learning approaches become more important as pedagogical methods. There is a special aspect to the project: joint activities with cultural youth groups from Africa, Asia and Latin America, showing the potential of cultural activities for developing and improving the perspectives and for social integration.

To support these approaches, the project introduces the comprehensive CULPEER learning offer with different tools for applying and implementing culture and peer learning approaches – guidelines, an e-learning course, modules on practical implementation aspects implementation, and an online portal with numerous and varied educational resources, including interactive elements like audio tracks, video and internet films, chats, web-links, assessments, working groups, wikis, applications with special learning tools.

The project “CULPEER for integration” is funded under the Erasmus+ programme. It is coordinated by **Institut equalita** from Cologne, Germany, and supported by the following official partners:
